**450** Injectable medicines  
(All entries fully revised)

**65** Antineoplastic medicines

**23** New monographs

**5** Antivenoms

Increased focus on warnings  
and patient monitoring

Expanded content on  
extravasation, intravenous  
fluids and sample  
infusion-rate calculations

MedicalDirector Publishing and Knowledge, in association with the **Society of Hospital Pharmacists Australia**, presents the **Australian Injectable Drugs Handbook (AIDH) 7<sup>th</sup> Edition**.

This resource is the most comprehensive resource of its kind and provides up to date information on injectable medicines. This edition has been updated to provide you with a more practical resource for your daily use. These changes include:

- A new layout for monographs.
- Easily identifiable antineoplastic monographs, now listed alphabetically with other monographs.
- Indexed and searchable supporting material.

The AIDH 7<sup>th</sup> Edition is device responsive, easy to use and integrates seamlessly with institutional library systems and off-site authentication platforms.
